

Eco Step Dim® Advanced LED

430-0002

we-ef

A factory programmed Electronic Controller is fitted in the luminaire to reduce the luminous flux and power. The luminaires are operated in stand-alone mode, so no special supply and/or control cables are required. Up to five different dimming levels (D1-D5) may be individually and optionally specified for a maximum of five time periods (T1-T5). Set and programmed at the factory by agreement. Reprogramming on site is also possible.

Contact WE-EF direct or your local WE-EF sales representative for an individual solution designed to precisely meet your needs.
