IO-20-FLC260-LED

139-1860

Specifically developed for the lighting of architectural surfaces, in combination with WE-EF [M] symmetric medium beam LED optics. Luminaires fitted with the 10-20 wallwash lens are typically positioned at $0.125 \, x$ h away from the target surface and spaced up to $1.75 \, x$ d apart:

h = height of wall/target surface d = 0.125 x h = distance from the wall/target surfaces = 1.75 x d = spacing between luminaires

The IO-20 LED wallwash lens is factory-installed within the luminaire. The factory-sealed qualities and advantages of the luminaire are fully maintained. Not separately available.

A maximum of one internal optical accessory.
