Wallwash lens IO-20

Specifically developed for the lighting of architectural surfaces, in combination with WE-EF [M] symmetric medium beam LED optics. Luminaires fitted with the 10-20 wallwash lens are typically positioned at 0.125×10^{-20} x h away from the target surface and spaced up to 1.75×10^{-20} d apart:

h = height of wall/target surface

d = 0.125 x h = distance from the wall/target surface

 $s = 1.75 \times d = spacing between luminaires$

The IO-20 LED wallwash lens is factory-installed within the luminaire. The factory-sealed qualities and advantages of the luminaire are fully maintained. Not separately available.

A maximum of one internal optical accessory.
