

Specifically developed for the lighting of architectural surfaces, in combination with WE-EF [M] symmetric medium beam LED optics. Luminaires fitted with the IO-20 wallwash lens are typically positioned at $0.125 \times h$ away from the target surface and spaced up to $1.75 \times d$ apart:

h = height of wall/target surface

$d = 0.125 \times h$ = distance from the wall/target surface

$s = 1.75 \times d$ = spacing between luminaires

The IO-20 LED wallwash lens is factory-installed within the luminaire.

Description	Part ID	C1
Wallwash lens IO-20	145-9479	97
