#### FLC141 LED - Wall bracket

#### Description

IP66, Class I. IK07. Marine-grade, all-aluminium construction. 5CE superior corrosion protection + primer including PCS hardware. Safety glass lens. Silicone CCG<sup>®</sup> Controlled Compression Gasket. Luminaire is factory-sealed and does not need to be opened during installation. Integral EC electronic converter in thermally-separated compartment. Advanced thermal management protects LEDs while optimising lumens output. CAD-optimised optics for superior illumination and glare control. OLC<sup>®</sup> One LED Concept. Two cable entries.

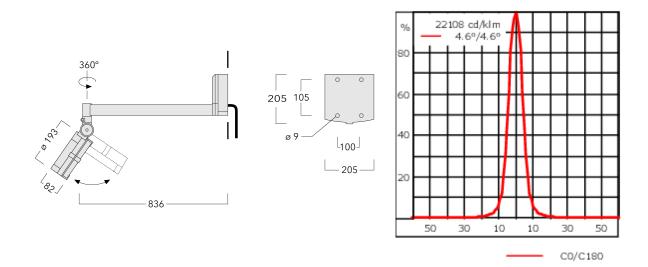

Knuckle permits 350° horizontal and 180° vertical aiming of optics.

2700 K option available on request.

| Weight             | 5.80 kg                                             |
|--------------------|-----------------------------------------------------|
| Light distribution | symmetric, very narrow beam,<br>sharp cut-off [EES] |
| Light source       | LED-24/48W / 700 mA - 4000 K                        |
| CRI                | 80                                                  |
| Power supply       | EC                                                  |
| LEDs               | 24                                                  |
| Rated input power  | 54 W                                                |

|                      | RAL9007 Grey aluminium                                  |  |  |  |  |  |
| Gasket               | Silicone CCG <sup>®</sup> Controlled Compression Gasket |  |  |  |  |  |
| Fasteners            | PCS Polymer Coated Stainless Steel Hardware (unpainted) |  |  |  |  |  |
| Ingress protection   | IP66                                                    |  |  |  |  |  |
| Impact resistance    | IK07                                                    |  |  |  |  |  |
| Corrosion resistance | 5CE+Primer                                              |  |  |  |  |  |

## **Electrical description**

| Power supply     | 230V / 50 Hz                                                        |
|------------------|---------------------------------------------------------------------|
| Driver / Ballast | Integral EC electronic converter in thermally-separated compartment |

## Additional information

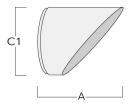

| Lifetime | Ta=40° L90B10 > 90000h                                                                                                                  |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Warranty | The product is supplied with 10-year warranty. Please refer to the LED Warranty Statement located on www.we-ef.com for further details. |

## FLC141 LED - Wall bracket

## Control

## DALI interface

| Description    | Part ID  | Additional information                                                                                                |  |  |
|----------------|----------|-----------------------------------------------------------------------------------------------------------------------|--|--|
| DALI interface | 430-0013 | DALI variant. The luminaire is equipped with a DT6 Dali driver (Dali 2.0).                                            |  |  |
|                |          | Dali 2.0                                                                                                              |  |  |
|                |          | -Application controllers and Input devices defined                                                                    |  |  |
|                |          | -Single-masters and multi-masters allowed                                                                             |  |  |
|                |          | -Event priorities defined                                                                                             |  |  |
|                |          | -Separate addressing & grouping from control gear                                                                     |  |  |
|                |          | Note: Mixing Dali 1 and Dali 2.0 drivers can cause problems because the addressing and the command scope has changed! |  |  |
