

WE-EF IP69K INGRADES: TIMELESS. TESTED. ENDURING.

At WE-EF, we understand the ongoing needs of the exterior space, and engineer our luminaires to excel in the toughest outdoor conditions.

These conditions require **IP69K – The highest protection rating available.**

WHY CHOOSE IP69K INGRADES?

	Competitor Standard		WE-EF STANDARD
	IP67	IP68	IP69K
Can withstand short-term immersion, less than 3 feet	✓	✓	✓
Can withstand full submersion, beyond 3 feet (hermetically sealed)		✓	✓
Protected against rigorous close-range, high pressure spray (1160+ psi)			✓
Protected against high temperature wash downs (176°F+)			✓

WE-EF IP69K STANDARD - THE HIGHEST PROTECTION RATING AVAILABLE

Fixtures undergo challenging set of tests to ensure they offer protection against:

- Ingress of dust
- Permanent Submersion
- High Temperatures
- High-pressure wash

The product passes the certification only if there is absolutely **zero** water ingress after the test.
